05/21/2020 Events

Today, world community is facing an unprecedented crisis due to the spread of the COVID-19 virus. In this crisis situation, each of us must try to find solutions depending on their field and skills. Many inventors are inventing new technologies and inventions related to COVID-19.

So, to honor those inventors, innovative companies, universities and scientific research centers, who found concrete solutions to fight against the spread of COVID-19, the International Federation of Inventors’ Associations (IFIA) organizes the “Inventions VS Corona” online contest.

Participation in this competition is free and the winners will receive multiple awards. Besides, projects will receive the necessary support to reach the global market through the worldwide network of IFIA.

The International Federation of Inventors' Associations invites inventors and researchers from all over the world to engage and participate in this online contest.
