

07/31/2014 Events

In the period 25-27 September 2014, at the Business and Exhibition Centre “Mircea Cancicov”, Bacau, Romania, will take place the [National Research and Innovation Exhibition Bacau 2014](#) [1] - Research, Development, Innovation and Technology Fair.

The event is organized by the CS Business and Exhibition Centre Bacau SA together with the Romanian Inventors Forum – Bacau Branch.

The objective of organizing this Exhibition is to attract the interest of all teams of researchers from Romania and abroad to promote scientific and innovational achievements and become a platform for exchange of information for all those working in research and innovation sphere.

The Exhibition aims to bring together specialized companies, research & development entities and structures, innovation and technology transfer centers, universities in the field and inventors.

The main areas addressed in the Exhibition will be: environmental protection, energy, mechanics, electricity, electronics, informatics, telecommunications, chemical industry, metal working, transport, medicine, security and protection equipment, recycling technologies, optics, photography, cinematography, education, art, specialized magazines and publications, etc.

The event will run for three days.
