20.10.2021 События

The International Exhibition of Research, Innovations and Inventions PRO INVENT, 19th edition, takes place online from 20 to 22 October 2021 in the city of Cluj-Napoca, Romania. In the opening of the PRO INVENT - 2021 Exhibition participated, with a welcoming speech, the Director General of the State Agency on Intellectual Property (AGEPI), Eugeniu Rusu, who mentioned: “I greatly appreciate the cooperation relations that AGEPI has with the organizers of the Exhibition and thank you for your openness and for the efforts you put into promoting inventions and business-to-science partnerships. You do a decent job.

In fact, modernization has favored the emergence of many new trades, and this process has been possible only thanks to inventors around the world, who have created products that have simplified our lives and whose benefits we exploit more and more often.

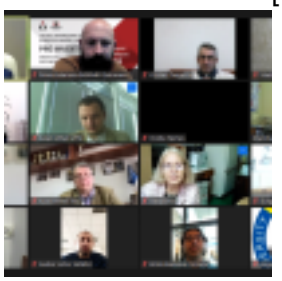

Therefore, I wish the organizers, partners, participants a lot of success in the activity, notable collaborations and special projects. I hope that you will please us with your presence, even virtual ones, at the International Specialized Exhibition INFOINVENT 2021, which will take place online from 17 to 20 November.”

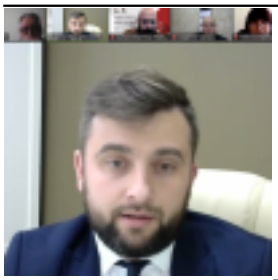

PRO INVENT brings together over 50 participating entities from universities, institutes, research centers, clusters, companies, as well as natural persons, who have registered for the jury over 400 inventions.

The PRO INVENT Exhibition in Cluj-Napoca was and wants to remain a distinct meeting place for inventors and inventions with businessmen and entrepreneurs interested in putting into practice the results of research, innovation and human creativity.

AGEPI encourages inventors and researchers from the Republic of Moldova to participate in specialized international exhibitions and use this tool with maximum efficiency to promote their own innovative projects.
