12.02.2026 События

The State Agency on Intellectual Property (AGEPI) participates in the 23rd edition of the National Exhibition “Made in Moldova”, which is held at the IEC “Moldexpo” from February 11 to 15, 2026.

By its presence at this landmark event for the local business environment, AGEPI reaffirms its commitment to supporting national producers in protecting and valorizing products and brands through intellectual property instruments.

During the exhibition, AGEPI specialists offer free consultations on the registration of intellectual property objects - trademarks, geographical indications, industrial designs, inventions - and distribute information materials intended for both exhibitors and visitors.

AGEPI’s participation in “Made in Moldova” aims to strengthen the dialogue with the business community, inform producers about the importance of legal protection of local brands and products, and promote the efficient use of intellectual property rights to increase competitiveness on the domestic and foreign markets.

Natalia Mogol, Deputy Director General of AGEPI, was also present at the official opening ceremony of the exhibition. The event brought together high-ranking officials and representatives of the business community from the country and abroad.

This year’s edition, organized by the Chamber of Commerce and Industry of the Republic of Moldova, under the patronage of the Government of the Republic of Moldova, is held under the theme “Home. Authentic. Native.” and brings together over 400 exhibitors from all regions of the country, as well as partners from Romania and Ukraine.

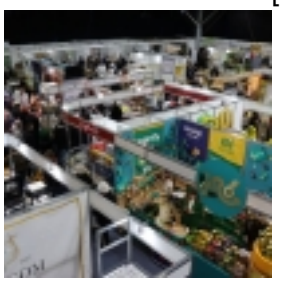

The “Made in Moldova” exhibition is an important platform for promoting local products, testing market demand, and establishing cooperation partnerships.

More details about the National Exhibition “Made in Moldova” can be found on the organizer's official website: https://chamber.md/ [1].
